## Video Soccer Game

TECMO

\* Unmatched REALISM and SMOOTH movement never achieved before on a video game machine!!!

YOU are the player on the screen. All the soccer techniques you can think of are here — sliding blocks, jumping blocks, diving head-shooting, over-head kick — you name it.

\* Even more fun with two players!

Additional coins lengthen the play time to make the match even more exciting. White knuckle tie games do not have to be called off in the middle.

\* One Player

Try to beat the computer.

Defeat seven teams and you win.

\* Two Players

Two Players can battle it out against each other. The play time is set by the number of coins inserted. Continuation play is also possible.

\* You control the FLASHING PLAYER.
